BAITIREDI LEATHER PRODUCTS

"Manufacturers and suppliers of quality Leather Goods"

BAITIREDI LEATHER PRODUCTS is a rural community-based manu-facturing enterprise, which resulted from the socio-economic intervention made by the national Department of Science and Technology (DST) in partnership with the Council for Scientific and Industrial Research (CSIR). This initiative is supported by the North West provincial and local government structures. These include the Department of Economic Development and Tourism, the Central District and the Ramotshela Moilwa (Zeerust) Local Municipalities and the Supingstad Tribal Authority.

The primary objective of this intervention is to establish a sustainable leather-based manufacturing enterprise that provides jobs, reduces the level of poverty within the communities and stimulate the local economic growth.

BAITIREDI LEATHER PRODUCTS is located at Supingstad community village under the jurisdiction of Ramotshela Moilwa (Zeerust) Local and (Lehurutshe) District Municipalities. Its operation is mainly the manufacturing of leather-based goods including but not limited to sandal range, stationery and office accessories range. However, customised products are also manufactured as per customer needs and specifications. Previous work done on such orders includes supply of conference bags to the national Department of Social Welfare, corporate gifts to the conference attendees hosted by the Department of Trade and Industry and traditional footwear to wedding functions. The processes for manufacturing involve utilisation of hand-tools and machinery.

BAITIREDI LEATHER PRODUCTS employs 18 (eighteen) people, comprising two youths, ten female adults and six male adults.

"Supporting this enterprise through purchasing of its products is tantamount to its sustenance".
